

# REACH

March 8, 2020

Hello Church Family,

We are humbled by the response to the Master Plan REACH campaign. In 5 months, just shy of \$1,000,000 has been raised towards this church ministry expansion vision.

When we reached the beginning of 2020, the Master Plan team sat down to evaluate the dollars raised with the full scope of the Master Plan. We had strategic conversations on how to: 1) Move forward; 2) Steward dollars with discernment; 3) Be confident about God's hand at work.

## SO WHERE ARE WE?

- We will be doing a phased approach, being watchful to not increase the cost of the overall Master Plan.
- This past Monday, the elders and deacons discussed the proposed next phase from the Master Plan Team. **and decided to move forward with the welcome/gathering area, secure children's area and the elevator.**
- Information on this phase, including how other Master Plan priorities will be completed, will be provided as soon as we get more finalized drawings from Station 19.
- The cost of this phase is projected to be less than \$4 million.
- Moving forward with this project is dependent on the pledges and dollars raised. The dollars needed to be raised before we break ground will be shared with our **congregation as soon as possible.**

Thank you for entrusting our team with moving this project forward, and thank you for joining us in trusting the Lord for His continued leading in this vision. **Your faithful giving is evidence of God's hand continuing to be at work in this process.**

With expectation,

Eric Glewen, Pastor Jon and the MP team
