

Even Better Than Eden

Sometimes the Bible's story is summarized as creation, fall, redemption, restoration. But the future is not headed toward merely a restoration of Eden's goodness. From the very beginning, the Bible's story has always been headed toward consummation, toward glory. This book traces nine themes that run from Genesis to Revelation in the Bible. Each reveals how God's plan for the new creation will be far more glorious than the original.

In this book, Nancy Guthrie takes the reader from Eden, through both Testaments, tracing patterns of God's plan which will finally be fulfilled as revealed in Revelation. Familiar Scriptures will take on deeper meaning as you see them in context of God's eternal story. Even Better Than Eden meets on Tuesday evenings or Wednesday mornings.
